

EasyDECON®

Rethink. Reset. Restart.

*In the fight to stay healthy
and stay open, facilities across the world
are relying on EasyDECON® DF200.*

Do more than clean— *disinfect*. Originally developed for the military, EasyDECON® is a potent, multi-purpose solution that rapidly disinfects most toxic materials, chemical agents and other emerging threats. Many years of extensive testing by the U.S. Department of Defense and other federal agencies have proven EasyDECON® to be a best-in-class disinfectant.

Our Starter Pack is perfect for those not yet acquainted with our product. It includes EasyDECON's 3-part solution as well as our C150+ Fogger, which is the perfect delivery system. Fogging with EasyDECON® effectively sends the disinfectant on a **seek-and-destroy mission** cutting through greases and biofilms that protect the virus and destroys the RNA of the virus preventing mutations (variants) or superbugs.

OUR STARTER PACK INCLUDES:

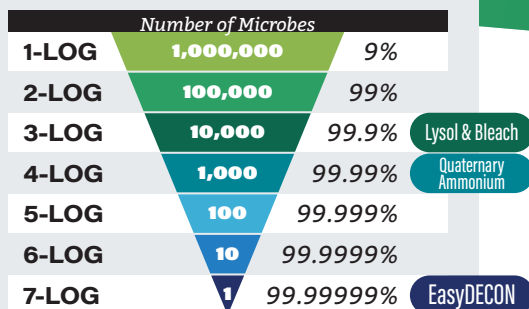

- Part 1: Surfactant
- Part 2: Peroxide
- Part 3: Booster
- Fogger

2¢
per sq. ft.

When You Can't Compromise

In terms of efficacy, EasyDECON® is in a class of its own. With a 7-log kill, the highest possible, it provides unsurpassed levels of disinfection to keep facilities safe and people healthy.

*EasyDecon®
is on the
EPA's N list.*
